

Christ is Risen! He Is Risen Indeed!

This ancient greeting sums up what we celebrate this Easter Sunday, the joy of Christ risen and alive in our midst. The Resurrection is the foundation and cornerstone of our faith. As St. Paul says, if Christ has not been raised, then our preaching is useless and our faith too is in vain.

Through all the things happening around us, one thing is certain. Christ is Risen from the dead! Just reflect upon those words for a moment. No matter what is happening around us, Christ is still our Lord and Savior and He died for us to grant us eternal life in heaven! Too often in our lives, we forget about the power of Christ's Resurrection. Our worldly concerns seem too much to overcome, we sometimes become too focused on the negative events happening around us and forget about the Resurrection of Christ that helps all of us be resurrected from our own physical death. If we truly believe in the power of the Resurrection of Christ, we will not let the things of this world get us too distressed and worried. Christ has overcome all the evil and sin of this world through his death and sacrifice on the cross. We need to rejoice in this Resurrection and say to one another constantly: Christ is Risen! Indeed He is Risen! May the power of Christ's Resurrection keep you and your family in peace and harmony this Glorious Easter Season!

We wish you, your loved ones, and friends a blessed, grace-filled Easter full of hope! Fr. Jozef, Fr. Marcin and Fr. Lou
